FEATURES

The disposal unit is fabricated from 2 mm thick steel plate (I.H.A. grade F-112).

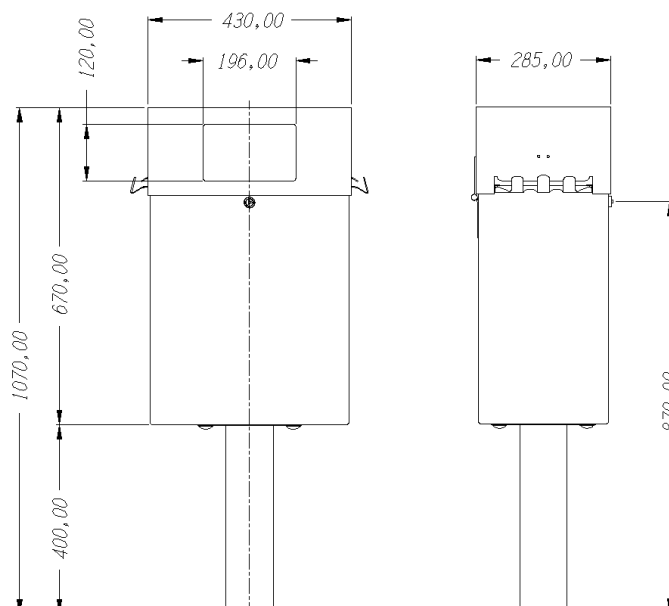

The post mounting is manufactured from a 2mm thick DIN 2448 ST 37 seamless steel tube, which is hot dip galvanised to prevent rusting.

The gloves/bags are black to disguise the contents. They are recyclable, opaque and waterproof, and their ergonomic design makes them easy to use.

A 200 x 200 x 4 mm steel plate fixes the unit to the ground using heavy threaded anchor bolts.

Optional customisation of body: maximum area 350 x 350 mm.
